

# Nails & Staples

## Nails and Staples in Every Size, Design and for Every Application

Whether it is with a manual or pneumatic nailer, using a T-shaped Nail, L-shaped Nail or Staple, PNI now offers it all. One source for tools and the famous serrated "shark-like" nails that keep floors put! "One-Stop Shopping" for all your nailer and fastener needs.

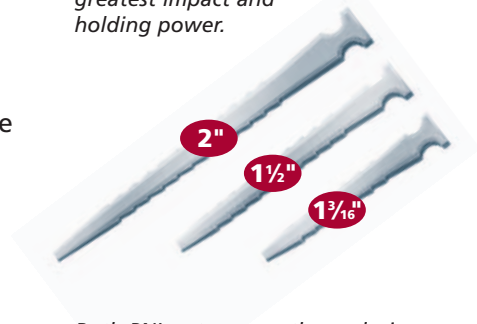

From the world famous Porta-Nailer Hammerhead system to the innovative serrated nails that keep your floors put, Porta-Nails is the only maker that makes it right the first time. Go on line now or call today, and do it the right way – every time!

### More Selections, Sizes and Applications.

Introducing the new shorter nails from Porta-Nails. Absolutely perfect for thinner, subfloor applications, yet with the same incredible tighter-biting holding power Porta-Nails is famous for.

Discover the most highly evolved nail in the industry!

*Wide head and "shark-like" serrated tooth design together provide the greatest impact and holding power.*

*Both PNI systems use the exclusive "shark-like" serrated tooth nail design providing a tighter biting, longer hold for your hardwood floor. Now choose from three sizes, including the new shorter-sized Porta-Nail.*

## Nails that Never Let Go - No Matter How Harsh the Elements

### Your One And Only Source For PNI's New Stainless Steel

The all-stainless 2" and 1-1/2" flooring nails and staples join the PNI family of quality products!

Adding to PNI's commitment to NAIL SUPERIORITY in the floor and decking realm, this stainless steel nail's wide head and grapple barb now allow the installer to apply superior holding power in any outside project where corrosion or rust is a concern. Use on ACQ treated materials as well as composite decking, boat building, hardwood flooring in coastal areas or any applications that require a non-corrosive fastener. These nails and staples meet the specific needs of ACQ Nailing applications.

Call 800-634-9281 today for more information – and put a hold on the corrode!
